PROFILE

Full Stack Developer & Generative AI Engineer with 2+ years of experience designing and developing scalable web and mobile applications using the MERN stack. Proficient in React.js, Next.js, Node.js, Express.js, React Native, and MongoDB with strong expertise in building secure RESTful APIs and scalable system architectures. Experienced in developing AI-powered solutions including chatbots, AI agents, and RAG-based systems using OpenAI, Gemini, and Groq APIs. Focused on delivering high-performance, production-ready applications with clean architecture, optimized performance, and maintainable code.

EXPERIENCE

MAGMA3C, *MERN Stack Developer* 05/2025 – 09/2025

- Built and deployed 2+ full-stack MERN applications including a guest posting platform and a free ads system
- Developed responsive and mobile-friendly UI using Next.js and Node.js

EDUCATION

Bachelor of Computer Science, *University of Agriculture Faisalabad* 2023 – 2027

SKILLS

Languages
JavaScript, TypeScript, Python

Frontend
React.js, Next.js, Angular

Backend
Node.js, Express.js, RESTful APIs

Database
MongoDB, Mongoose

Mobile Development
React Native

Generative AI
LLMs, AI Agents, RAG Systems

Additional Stack Knowledge
Flask, Firebase, GraphQL

UI / Styling
Tailwind CSS, Bootstrap, Material UI, CSS

PROJECTS

Weblix | AI Website Generator (MERN)
- Developed an AI website generator that creates websites from prompts with preview and download options
- Enables users to build modern websites quickly using Generative AI without coding
- Github: https://github.com/SirajAbid17/Weblix

SirajBook | Social Media Application (MERN)
- Designed and deployed a full-stack MERN social media application with Instagram-inspired UI
- Engineered core features including post creation, likes, comments, and real-time notifications
- Github: https://github.com/SirajAbid17/sirajbook

SirajVerse | Professional Networking Platform (MERN)
- Engineered a LinkedIn-style networking platform enhanced with AI-powered features
- Integrated professional profile management, content sharing, and connection features
- Github: https://github.com/SirajAbid17/sirajverse

Code Editor | Web-based IDE (React)
- Created a web-based code editor supporting live HTML, CSS, and JavaScript execution
- Integrated real-time preview functionality with instant code compilation
- Github: https://github.com/SirajAbid17/codeeditor

MSB Bank Management | Banking System (MEAN)
- Developed authentication, account creation, and transaction management (deposit, withdrawal, transfers)
- Deployed ATM card features, admin panel, and real-time chatbot for banking support
- Github: https://github.com/SirajAbid17/MSB_BANK_PROJECT

SKCoder | Technical Blogging Platform (MERN)
- Built a technical blogging platform for developers using React.js and Node.js
- Optimized application performance, reducing page load time by 40%
- Github: https://github.com/SirajAbid17/Blogwebsite

Echo Market | Mobile Marketplace (React Native)
- Developed a React Native marketplace application using Expo framework
- Integrated image uploads, product listings, and smooth browsing experience
- Github: https://github.com/SirajAbid17/echo-market

AI Bot | AI Chat Application (React)
- Engineered an AI-powered chat application using Google's Gemini API
- Delivered real-time learning assistance and problem-solving support
- Github: https://github.com/SirajAbid17/AIBOT_Website

ACHIEVEMENTS

- Built and deployed 10+ full-stack applications using MERN stack
- Strong experience in REST APIs, authentication systems, and scalable architecture
- Built and integrated AI-powered features including chatbots and prompt-based systems using OpenAI and Gemini APIs in real-world projects
